NATIONAL BOARD OF EXAMINERS IN OPTOMETRY®

Enhancements for the Part I ABS Examination Included in Updated Tutorial *Released: March 4, 2022*

NBEO is pleased to inform you that we have worked with Pearson VUE to incorporate two enhancements to the exam day experience for the upcoming NBEO Part I ABS examination. These enhancements are meant to assist candidates with improved feedback and note-taking tools.

The toolbar on the examination screen will reflect the following:

1. Relabeling of **Comments** to **Critiques**
2. Addition of a **My Notes** button

Candidates can review these new features in an updated ABS tutorial, which can be accessed by clicking [here](#). NBEO hopes that you will find the newly labeled **Critiques** and new **My Notes** button helpful as you take the examination.
